		Board Meetings	Nominations & Remuneration Committee Meetings	Risk & Audit Committee Meetings	Audit* Committee Meetings	Risk* Committee Meetings	Members' Equity Protection Committee Meetings
Catherine M Hallinan	A	8	2	4	2	2	
	B	8	2	4	2	2	
Graham B Raward	A	8				2	1
	B	8				2	1
Steven R Carritt	A	7		4		1	1
	B	8		4		2	1
John B Flynn	A	8	3	4	1		
	B	8	4	4	2		
Jennifer M Wicks	A	8	2			2	1
	B	8	2			2	1
Malcolm S Graham	A	8		4	2		
	B	8		4	2		
Irene H van der Loos	A	6	4		1		1
	B	8	4		2		1

A - Number of meetings attended
B - Number of meetings held during the time the Director held office during the year.
* From 1 March 2014 The Risk & Audit Committee reformed into two seperate Board commitees.
All Directors requested, and were granted, leave for meetings they were unable to attend.

DIVIDENDS
No dividends have been paid or declared since the end of the previous financial year, nor do the Directors recommend the declaration of a dividend.

CORPORATE INFORMATION
Gateway Credit Union ("Credit Union") is a public company limited by shares incorporated and domiciled in Australia. As at 30 June 2014, the Consolidated Entity comprises of the Credit Union, the Portavia Trust No. 1 Westpac Warehouse ("Portavia Trust No.1") and the newly created Portavia Trust No.2 Series 2013-1R ("Portavia Trust No.2"). The Credit Union holds 9 Residual Units in each of the Portavia Trust No.1 and Portavia Trust No. 2, which are both Controlled Entities of the Consolidated Entity.

The Consolidated Entity employed 75 employees at 30 June 2014 (2013: 75).

PRINCIPAL ACTIVITIES
The principal activities of the Consolidated Entity during the year were the provision of financial and associated services to Members of the Credit Union, the Portavia Trust No.1 and Portavia Trust No.2. There have been no significant changes in the nature of these activities during the year.

OPERATING AND FINANCIAL REVIEW

The 2014 financial year's Consolidated Entity results comprises of that of the Credit Union and Portavia Trust No.1 for the full 12 months to 30 June 2014 and that of the Portavia Trust No.2 from its date of establishment on 10 July 2013 to 30 June 2014. The 2013 comparative Consolidated results comprises only of the Credit Union and the Portavia Trust No.1 for the full 12 months for that year.

The Consolidated Entity recorded a profit after income tax for the year ended 30 June 2014 of $1.725 million (2013: $2.451 million).

The Consolidated Entity balance sheet assets reached $977.5 million (2013: $873.8 million), representing an increase of $103.7 million (11.87%) over the previous financial year. Total loans grew $88.7 million (11.73%) to $844.0 million (2013: $755.3 million) and total deposits were $696.2 million (2013: $660.5 million), being an increase of $35.6 million (5.40%) from the previous year.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the Consolidated Entity during the 2014 financial year.

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There have been no significant events after the balance date.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

There have been no significant changes in the operations and services of the Consolidated Entity.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Consolidated Entity is not subject to any particular or significant environmental regulation under laws of the Commonwealth or of a State or Territory.

SHARE OPTIONS

No option to acquire shares in the Credit Union has been granted to any person. No shares have been issued during the financial year or since the end thereof by virtue of the exercise of any options. There are no unissued shares under option at the date of this report.

DIRECTORS REMUNERATION

No benefits have been received or are due to be received by a Director, a firm of which the Director is a member, or an organisation in which a Director has a substantial financial interest, either during the financial year, or subsequently, under a contract for services rendered to the Credit Union.

INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

During or since the end of the financial year, a premium was paid in respect of a contract insuring Directors and officers (including executive officers, secretary and employees) of the Credit Union against liability.

In accordance with normal commercial practice, disclosure of the total amount of premium payable and the nature of the liabilities covered by the insurance contract is prohibited by a confidentiality clause in the contract.

ROUNDING

The amounts contained in this report and in the financial report have been rounded to the nearest $1,000 (where rounding is applicable), unless otherwise stated, under the option available to the Credit Union under ASIC Class Order 98/0100. The Credit Union is an entity to which the Class Order applies.

AUDITOR INDEPENDENCE

The Directors received an independence declaration from the auditor, Ernst & Young. A copy has been included on page 8 of the report.

Signed in accordance with a resolution of the Directors.

The above Statement of Cash Flows should be read in conjunction with the accompanying notes.

1 CORPORATE INFORMATION

The financial report of the Credit Union and the Consolidated Entity, which includes the Credit Union and its controlled entities, for the year ended 30 June 2014, was authorised for issue in accordance with a resolution of the Directors on 16 September 2014.

Gateway Credit Union is a public company limited by shares incorporated and domiciled in Australia. The address of the Credit Union's registered office is Level 16, 2 Market Street, Sydney, NSW.

The nature of the operations and principal activities of the Credit Union are described in the Directors' Report.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standards. The financial report has also been prepared on a historical cost basis, except for Derivative financial instruments which are measured at fair value. Where necessary, comparative figures have been adjusted.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars ($'000) unless otherwise stated under the option available to the Consolidated Entity under ASIC Class Order 98/0100. The Consolidated Entity is an entity to which the Class Order applies.

The Statement of Financial Position is prepared on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non current.

(b) Statement of compliance

The financial report is also in compliance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(c) New Accounting Standards & Interpretations

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the Consolidated Entity for the annual reporting period ended 30 June 2014.

AASB 2012-3 Amendment - Offsetting Financial Assets and Financial Liabilities (effective date: 1 January 2014)

AASB 2012-3 adds application guidance to AASB 132 Financial Instruments: Presentation to address inconsistencies identified in applying some of the offsetting criteria of AASB 132, including clarifying the meaning of "currently has a legally enforceable right of set-off" and that some gross settlement systems may be considered equivalent to net settlement.

These amendments will have minimal impact on the Consolidated Entity as it presently does not set-off financial instruments in its presentation of them. Applicable for the financial year ended 30 June 2015.

AASB 9 - Financial Instruments (effective date: 1 January 2018)

AASB 9 includes requirements for the classification and measurement of financial assets. It was further amended by AASB 2010-7 to reflect amendments to the accounting for financial liabilities.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(c) New Accounting Standards & Interpretations (continued)

These requirements improve and simplify the approach for classification and measurement of financial assets compared with the requirements of AASB 139. The main changes are described below.

(a) Financial assets that are debt instruments will be classified based on (1) the objective of the entity's business model for managing the financial assets; (2) the characteristics of the contractual cash flows.
(b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument.
(c) Financial assets can be designated and measured at fair value through profit or loss at initial recognition if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases.
(d) Where the fair value option is used for financial liabilities the change in fair value is to be accounted for as follows:

- The change attributable to changes in credit risk are presented in other comprehensive income (OCI).
- The remaining change is presented in profit or loss.

If this approach creates or enlarges an accounting mismatch in the profit or loss, the effect of the changes in credit risk are also presented in profit or loss.

Consequential amendments were also made to other standards as a result of AASB 9, introduced by AASB 2009-11 and superseded by AASB 2010-7 and 2010-10.

The AASB issued a revised version of AASB 9 (AASB 2013-9) during December 2013. The revised standard incorporates three primary changes:

(1) New hedge accounting requirements including changes to hedge effectiveness testing, treatment of hedging costs, risk components that can be hedged and disclosures.
(2) Entities may elect to apply only the accounting for gains and losses from own credit risk without applying the other requirements of AASB 9 at the same time.
(3) In February 2014, the IASB tentatively decided that the mandatory effective date for AASB 9 will be 1 January 2018.

Whilst early application of this Standard is allowed, though not taken up by the Consolidated Entity, the main requirements of this Standard will need to be assessed as the new practices and principles in this Standard are generally applicable and will impact on the accounting and measurement of financial assets and liabilities. These changes extend to hedge accounting and effectiveness testing, which the Consolidated Entity employs in the preparation of its accounts. Applicable for the financial year ended 30 June 2019.

AASB 2013-4 - Amendments – Novation of Derivatives and Continuation of Hedge Accounting [AASB 139] (effective date: 1 January 2014)

AASB 2013-4 amends AASB 139 to permit the continuation of hedge accounting in specified circumstances where a derivative, which has been designated as a hedging instrument, is novated from one counterparty to a central counterparty as a consequence of laws or regulations.

These changes will have minimal impact on the Consolidated Entity as it is unlikely that its swap counterparties will need to be novated. Applicable to the financial year ended 30 June 2015.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Basis of consolidation

The consolidated financial statements comprise the financial statements of Gateway Credit Union Ltd and its controlled entity as at and for the period ended 30 June 2014, the Consolidated Entity.

Controlled entities are all those entities over which the parent entity, the Credit Union, has the power to govern the financial and operating policies so as to obtain benefits from their activities. Accounting standards deem the Portavia Trust No.1 and Portavia Trust No.2, which are both special purpose entities, to be a controlled entities of the Credit Union, as it holds all the participating residual income units in its ownership structure, and is therefore consolidated.

The results of the Portavia Trust No.1 have been fully consolidated for the full 12 months of the year and the Portavia Trust No.2 have been consolidated from the date of establishment being 10 July 2013 to 30 June 2014. During the financial year the Credit Union securitised mortgage loans into the Portavia No.1 Trust and Portavia No.2 Trust through its loan securitisation program. In preparing the consolidated financial statements, all intercompany balances and transactions have been eliminated in full.

(e) Functional and presentation currency

Both the functional and presentation currency of the Credit Union and Consolidated Entity is Australian dollars ($).

(f) Cash and cash equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and on hand, short-term bills and call deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included within interest-bearing loans and borrowings on the Statement of Financial Position.

(g) Loans and advances to Members (Classified as Loans and Receivables as per AASB 139)

(i) Basis of inclusion
All loans are initially recognised at fair value.

Loans to Members are reported at their recoverable amount representing the aggregate amount of principal and unpaid interest owing to the Consolidated Entity at balance date, less any allowance or provision for impairment.

(ii) Interest earned
Term Loans and Lines of Credit – Interest is calculated on the daily closing balance outstanding and is charged in arrears to a Member’s account on the last day of each month.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Loan impairment

The Consolidated Entity assesses at each balance date whether there is any objective evidence that a loan and advance to a Member, or a group of loans and advances, is impaired. A loan and advance, or a group of loans and advances, is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and the loss event (or events) has an impact on the estimated future cash flows of the loans and advances or group of loans and advances that can be reliably estimated.

Objective evidence of impairment may include indications that the borrower, or a group of borrowers, is experiencing financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to 'bad debts recovered'.

Bad debts are written-off when identified. Identification may include: bankruptcy, clearout or unlikelihood of recovery. If a provision of impairment has been recognised in relation to a loan, write-offs for bad debts are made against the provision. If no provision for impairment has previously been recognised, write-offs for bad debts are recognised as expenses in the Statement of Comprehensive Income.

(i) Specific provision

Losses for impaired loans are recognised when there is objective evidence that the impairment of a loan has occurred. Impairment losses are calculated on individual loans. The amount provided for impairment is determined by Management and the Board to recognise the probability of loan amounts not being collected in accordance with terms of the loan agreement.

(ii) Collective provision

A collective provision is made for groups of loans with similar credit risk characteristics. Loans that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

The amount of impairment loss is based upon estimated losses incurred within the portfolio, based upon objective evidence of impairment, the estimated probability of default and the expected loss given default having regard to the historical experience of the Consolidated Entity and industry practices.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Restructured loans

Where possible, the Consolidated Entity seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews renegotiated loans to ensure that all the criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loans' original effective interest rate.

(j) Bad debts written-off

Bad debts are written-off when recovery of the debt is considered unlikely by Management and the Board. Bad debts are written-off as expenses in the Statement of Comprehensive Income.

(k) Investments and other financial assets

Investments and financial assets in the scope of AASB 139 *Financial Instruments: Recognition and Measurement* are categorised as either financial assets at fair value through profit and loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Designation is re-evaluated at each financial year end, but there are restrictions on reclassifying to other categories.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of assets not at fair value through profit and loss, directly attributable transaction costs.

(i) Recognition and Derecognition

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date that the Consolidated Entity commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the market place.

(ii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Consolidated Entity has a positive intention and ability to hold to maturity. Investments intended to be held for an undefined period are not included in this classification. Investments that are intended to be held-to-maturity are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit and loss when the investments are derecognised or impaired, as well as through the amortisation process.

If the Credit Union were to sell or reclassify more than an insignificant amount of held to maturity investments before maturity (other than in certain specific circumstances), the entire category would be tainted and would have to be reclassified as available-for-sale. Furthermore, the Credit Union would be prohibited from classifying any financial asset as held to maturity during the following two years.

(iii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit and loss when the loans and receivables are derecognised or impaired.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(l) Hedge accounting

The Consolidated Entity uses derivative financial instruments, in the form of interest rate swaps to hedge its risk exposure to interest rate fluctuations. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured to fair value. The fair values of interest rate swaps are determined using a valuation technique based on cash flows discounted to present value using current market interest rates.

Derivatives are carried as assets when their fair value is positive and as liabilities when their fair value is negative.

For the purposes of hedge accounting, hedges are classified as cash flow hedges when they hedge the exposure to variability in cash flows that is attributable either to a particular risk associated with a recognised asset or liability or to a forecast transaction. The Portavia Trust has cash flow hedges attributable to receipt of interest on fixed rate loans.

Cash flow hedges are hedges of the Consolidated Entity's exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability or to a forecast transaction and that could affect profit and loss. Having met the strict criteria for hedge accounting, the effective portion of the gain or loss on the hedging instrument is recognised directly in equity, while the ineffective portion is recognised in profit and loss. Amounts taken to equity are transferred out of equity and included in the measurement of the hedged transaction (finance costs or inventory purchases) when the forecast transaction occurs.

At inception of the hedge relationship, the Consolidated Entity formally documents the relationship between the hedged item and the hedging instrument, including the nature of the risk, the objective and the strategy for undertaking the hedge and the method that will be used to assess the effectiveness of the hedging relationship. Also at the inception of the hedge relationship, a formal assessment is undertaken to ensure the hedging instrument is expected to be highly effective in offsetting the designated risk in the hedged item.

At each reporting date, the Consolidated Entity measures ineffectiveness using the dollar offset method. A hedge is regarded as highly effective if the changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated are expected to offset in a range of 80% to 125%. For situations where the hedged item is a forecast transaction, the Consolidated Entity assesses whether the transaction is highly probable and presents an exposure to variations in cash flows that could ultimately affect the Statement of Comprehensive Income.

If the forecast transaction is no longer expected to occur, amounts recognised in equity are transferred to the Statement of Comprehensive Income. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked (due to it being ineffective), amounts previously recognised in equity remain in equity until the hedged item itself impacts the Statement of Comprehensive Income.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) Derecognition of financial assets and financial liabilities

A financial asset is derecognised where:

- the rights to receive cash flows from the asset have expired; or
- the Credit Union has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party unless under a 'pass-through' arrangement; and
- either (a) the Credit Union has transferred substantially all the risks and rewards of the asset, or (b) the Credit Union has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Credit Union has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Credit Union's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Credit Union could be required to repay.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability, and the difference in the respective carrying amount is recognised in profit and loss.

Portavia No. 1 Trust

The derecognition criterion outlined above have been satisfied in respect to the Portavia No. 1 Trust and accordingly, all the assets and liabilities of this Trust have been derecognised from the financial position of the Credit Union.

Portavia No. 2 Trust

In respect to the Portavia No.2 Trust, whilst the Credit Union has transferred its contractual rights to receive the cash flows from the securitised mortgages over to the Trust, it has retained substantially all risks and rewards of these cash flows by virtue of the ownership of the note investment and residual income units. The residual income units issued by the Trust entitle the Credit Union to any residual income or loss of the Trust after all costs of the Trust have been met and the note investments provide the Credit Union with interest income. Accordingly, the eligible assets and liabilities do not meet the criteria for de-recognition within the Credit Union and will continue to be included within both the accounts of the Credit Union and of the Consolidated Entity.

Securities sold under agreements to repurchase at a specified future date are not derecognised from the statement of financial position as the Credit Union retains substantially all of the risks and rewards of ownership. The corresponding cash received is recognised in the consolidated statement of financial position as an asset with a corresponding obligation to return it, including accrued interest as a liability within Cash collateral on securities lent and repurchase agreements, reflecting the transaction's economic substance as a loan to the Credit Union. The difference between the sale and repurchase prices is treated as interest expense and is accrued over the life of agreement using the Effective Interest Rate. When the counterparty has the right to sell or repledge the securities, the Credit Union reclassifies those securities in its statement of financial position to Financial assets held for trading pledged as collateral or to Financial investments available-for-sale pledged as collateral, as appropriate.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Property, plant and equipment

Property, plant and equipment is stated at historical cost less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. Similarly, when each major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement only if it is eligible for capitalisation. All other repairs and maintenance are recognised in profit and loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets at the following rates:

- Plant and equipment - 15% - 33.3%
- Leasehold property improvements - 12.5%

Assets that cost less than $300 are not capitalised and are expensed in the month of purchase.

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit and loss in the year the asset is derecognised.

(o) Intangible assets

The intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Amortisation is calculated using the straight-line method to write down the cost of intangible assets to their residual values over their estimated useful lives as follows:

- Computer software - 20% - 40%

The Consolidated Entity's intangible assets only include the value of computer software.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(p) Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Operating lease payments are recognised as an expense in the Statement of Comprehensive Income on a straight line basis over the lease term. Operating lease incentives are recognised as a liability when received and subsequently reduced by allocating lease payments between rental expense and reduction of the liability.

Lease make good

A provision has been made for the future cost estimates associated with dismantling furniture & fittings. This is recognised as a provision liability in the Statement of Financial Position, which increases annually over the life of the lease. The calculation of this provision requires assumptions which may result in future actual expenditure differing from the amounts currently provided. The provision is periodically reviewed and updated based on the facts and circumstances available at the time. Changes to the estimated future costs are recognised in the Statement of Financial Position by adjusting both the expense and provision.

(q) Impairment of non-financial assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are tested for possible reversal of the impairment whenever events or changes in circumstances indicate that the impairment may have reversed.

(r) Member deposits

(i) Basis for determination

Member Savings and Term Deposits are quoted at the aggregate amount of moneys owing to depositors.

(ii) Interest payable

Interest on Savings and Term Deposits is calculated on the daily balance and posted to the accounts monthly, half-yearly, annually, or on maturity. Interest on Savings and Term Deposits is brought to account on an accrual basis in accordance with the interest rate, terms and conditions of each Savings and Term Deposit account as varied from time to time. The amount of the accrual is shown as part of Member Deposits.

(s) Interest-bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

(t) Borrowing costs

Borrowing costs are recognised as an expense when incurred.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(u) Provisions

Provisions are recognised when the Consolidated Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Consolidated Entity expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Comprehensive Income net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the time value of money and the risks specific to the liability. The increase in the provision resulting from the passage of time is recognised in finance costs.

(v) Employee leave benefits

(i) Wages, salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits and annual leave are recognised for employees' services up to the reporting date. In respect to annual leave liability, expected cash outflows have taken into consideration the expectation of liabilities to be settled beyond 12 months of reporting date. As such, these wages and salaries and annual leave liability have been measured at the amounts expected to be paid when the liabilities are settled.

(ii) Long service leave

Liabilities for long service leave have been recognised and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Expected future payments have been discounted using market yields at the reporting date on national government bonds that match, as closely as possible, the estimated future cash outflows.

(w) Revenue recognition

Revenue is recognised and measured at the fair value of the consideration received or receivable to the extent it is probable that the economic benefits will flow to the Consolidated Entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Interest income

Revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Loan interest is calculated on the basis of the daily closing balance outstanding and is charged in arrears to a Member's account on the last day of each month.

(ii) Fees and commission income

The Consolidated Entity earns fees and commissions from a range of services it provides to its Members. Income is brought to account on an accrual basis once a right to receive consideration has been established.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(x) Income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit and loss.

Deferred tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit and loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit and loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(y) Other taxes

Revenues, expenses and assets are recognised net of the amount of Goods and Services Tax (GST) except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(z) Equity reserves

Cash flow hedge reserve

The cash flow hedge reserve comprises of the effective portion of the gain or loss on a hedging instrument designated in a cash flow hedge.

3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has identified the following critical accounting policies for which significant judgements, estimates and assumptions are made. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods.

Further details of the nature of these assumptions and conditions may be found in the relevant notes to the financial statements.

(a) Significant accounting judgements

(i) Impairment losses on loans and advances

The Consolidated Entity reviews its problem loans and advances at each reporting date to assess whether a provision for impairment should be recorded in the Statement of Comprehensive Income. In particular, judgement by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provision.

In addition to specific provisions against individually significant loans and advances, the Consolidated Entity also makes a collective impairment provision against exposures which, although not specifically identified as requiring a specific provision, have a greater risk of default than when originally granted. This takes into consideration factors such as any deterioration in geographic risk, economic factors, hardship applications or delinquency trends.

(ii) Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences as management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

(iii) Impairment of non-financial assets

The Consolidated Entity assesses impairment of all assets at each reporting date by evaluating conditions specific to the Consolidated Entity and to the particular asset that may lead to impairment. These include technology, economic and political environments and future expectations. If an impairment trigger exists the recoverable amount of the asset is determined. When management does not consider that the triggers for impairment testing have been significant enough, these assets are not tested for impairment in this financial period.

3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

(a) Significant accounting judgements (continued)

(v) Taxation

The Consolidated Entity's accounting policy for taxation requires management's judgement as to the types of arrangements considered to be a tax on income in contrast to an operating cost. Judgement is also required in assessing whether deferred tax assets and certain deferred tax liabilities are recognised on the Statement of Financial Position. Deferred tax assets, including those arising from unrecouped tax losses, capital losses and temporary differences, are recognised only where it is considered more likely than not that they will be recovered, which is dependent on the generation of sufficient future taxable profits.

Assumptions about the generation of future taxable profits depend on management's estimates of future cash flows. These depend on estimates of future performance, operating costs, restoration costs, capital expenditure, dividends and other capital management transactions. Judgements are also required about the application of income tax legislation. These judgements and assumptions are subject to risk and uncertainty, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of deferred tax assets and deferred tax liabilities recognised on the Statement of Financial Position and the amount of other tax losses and temporary differences not yet recognised. In such circumstances, some or all of the carrying amounts of recognised deferred tax assets and liabilities may require adjustment, resulting in a corresponding credit or charge to the Statement of Comprehensive Income.

(vi) Classifiction of held to maturity investments

The Consolidated Entity classifies non-derivative financial assets with fixed or determinable payments and a fixed maturity as held to maturity investments. This classification requires significant judgement where management evaluates its intention and ability to hold such investments to maturity.

(b) Significant accounting estimates and assumptions

(i) Estimation of useful lives of non-financial assets

The estimation of the useful lives of assets has been based on historical experience as well as lease terms (for leasehold improvements). In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary.

(ii) Make good provision

The Consolidated Entity makes a provision to cover the cost of restoring the leased office premises at 2 Market Street upon completion of the lease as per the requirements of the lease contract. An estimate of the per metre cost of the restoration is based on market rates. This rate and the adequacy of the provision build up is reviewed on a yearly basis to ensure coverage of the make good liability.

(iii) Fair value of derivatives

The Consolidated Entity uses observable market prices for similar derivative instruments in order to derive a market fair value for existing derivatives.

(iv) Effective Interest Rate ("EIR")

The EIR has been adopted prospectively from 1 July 2013, to determine the value of capitalised upfront broker commissions. Under this method, the estimated expected life and run-off rates of broker loans have been assessed based on historical prepayment rates of those portfolios.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES

Risk is inherent in the Consoldiated Entity's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Consolidated Entity's continuing profitability and each individual within the Consolidated Entity is accountable for the risk exposures relating to his or her responsibilities. The Consolidated Entity is exposed to market risk, credit risk, liquidity risk and operational risk.

The risk control process does not include business risks such as changes in the environment, technology and industry. They are monitored through the Consolidated Entity's strategic planning process.

Core Components and Principles

During the year the Consolidated Entity continued to develop its improvement program in relation to its Risk Management Framework.

The Consolidated Entity's Risk Management Framework is embedded throughout its operations and governance process, and incorporates the following core components:

- a '*three lines of defence*' model to provide assurance that there are clearly defined risk ownership responsibilities with functionally independent levels of oversight and independent assurance;
- a suite of policies, procedures and systems which together document the Credit Union's Board-approved Risk Appetite Statement and risk management systems descriptions, establish specific limits and other measures to restrict particular risk exposures, ensure that all categories of risk are actively monitored by the Board and managed by Executive Management and provide for regular review of the Credit Union's risk tolerance;
- human resources practices designed to recruit, train and retain employees with required specialist skills;
- clearly documented delegations of responsibility and accountability of risk management throughout the organisation;
- internal control processes including structured Board and Executive Management reporting, a system of independent review (by Internal and External Audit) and constant Board oversight; and
- an operational philosophy that seeks to anticipate and minimise risks before they occur and that fully investigates, and learns from, any unexpected consequences that should arise.

Roles and Responsibilities

Board of Directors

The Board of Directors is responsible for the overall risk management framework and for approving the risk strategies and principles.

Audit Committee

The Audit Committee provides assurance to the Board on the appropriateness, effectiveness and adequacy of the risk management framework. It is responsible for the internal and external auditor relationships.

Risk Committee

The Risk Committee has the overall responsibility for the development of the risk strategy and recommending that strategy to the Board. It is responsible for implementing principles, frameworks, policies and risk limits. The Risk Committee is responsible for the fundamental risk issues and manages and monitors relevant decisions.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Roles and Responsibilities (continued)

Internal Audit

KPMG is engaged by the Board to review risk management and internal controls in the capacity of independent internal auditor. KPMG provides reports to the Convenor of the Audit Committee and has full access to staff and information when conducting its reviews.

Chief Executive Officer

The Chief Executive Officer is responsible for the ongoing management of the Risk Management Framework including its periodic review and renewal subject to requisite Board direction and approvals.

Chief Risk Officer and Executive

The Chief Risk Officer and Executive Management team are responsible for implementing the Board-approved risk management strategy and for developing policies, procedures, processes and controls for identifying and managing risks in all areas of activity.

Asset and Liability Committee

The Asset and Liability Committee, chaired by the Chief Executive Officer, is responsible for overseeing the Treasury framework including the setting of deposit and loan rates in the context of monetary policy and market competition; the management of liquidity and development of new liquidity sources; approving the structure of the Statement of Financial Position; optimising the loan mix with the appropriate balance of risk and reward; monitoring the short and long-term capital position; and managing the inherent interest rate risk.

Compliance Committee

The Compliance Committee, chaired by the Chief Executive Officer, oversees the Credit Union's effectiveness in meeting all relevant compliance obligations, as well as developing and reviewing the policy framework for recommendation and approval by the relevant Board Committees and endorsement by the Board.

Risk Measurement and Reporting Systems

Monitoring and controlling risks is primarily performed based on limits established within the Risk Appetite Statement by the Board of the Credit Union. These limits reflect the business strategy and market environment of the Credit Union as well as the level of risk that the Credit Union is willing to accept.

The Board identifies a number of discrete material risk categories and the risk appetite and tolerance parameters for each of these. The Risk Appetite Statement qualifies the appetite or tolerance level for business risks and summarises the limits and management controls which are to apply to control the impact of a particular risk. These parameters are reviewed annually.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Risk Measurement and Reporting Systems (continued)

Information is compiled, examined and processed in order to analyse, control and identify risks early. This information is presented and explained to the Management Committees, the Risk Committee and the Board of Directors. The reporting includes aggregate credit exposures, delinquency summary, loan security summary, loan type summary, liquidity ratios, VaR, sensitivity analysis and material changes. On a monthly basis detailed reporting takes place. Senior Management assesses the appropriateness of the allowance for impairment on a quarterly basis. The Board receives summarised risk reporting on key risk measures on a monthly basis. More detailed analysis and review of risks is undertaken on a periodic basis by the Risk Committee with reporting of outcomes to the Board.

Risk Mitigation

The Consolidated Entity actively manages risk through a framework that includes use of collateral, delegations, limit frameworks, review of loan concentrations and interest rate hedging.

Excessive Risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Credit Union's performance to developments affecting a particular geographical location (refer note 8 (b)).

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates, and equity prices. The Credit Union is only exposed to changes in interest rates.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Board has established limits on Value at Risk (VaR) and interest rate gaps for stipulated periods. Positions are monitored on a monthly basis.

VaR assumptions

The VaR that the Credit Union measures is an estimate, using a confidence level of 99%, of the potential loss that is not expected to be exceeded if the current market risk positions were to be held unchanged for one day. The use of a 99% confidence level means that, within twenty days' horizon, losses exceeding the VaR figure should occur, on average, not more than once every hundred days.

Since VaR is an integral part of the Credit Union's interest rate risk management, VaR limits have been established and exposures are reviewed monthly against the limits by management.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(a) Market risk (continued)

The VaR during the year was as follows:

	Consolidated	
	2014	2013
	$000's	$000's
30 June	**388**	188
Average	**341**	206
Highest	**633**	255
Lowest	**137**	178

The balances for the Credit Union and the Consolidated Entity are the same and therefore the Credit Union balances have not been disclosed.

The Consolidated Entity utilises interest rate swaps to minimise exposure to interest rate risk. Its exposure to interest rate risk and the effective weighted interest rate for classes of financial assets and financial liabilities are set out below:

Credit Union

			Fixed interest rate

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(b) Credit risk

Credit risk is the risk of financial loss if a counterparty fails to meet an obligation under a contract. It arises principally from the loans and receivables. Potential customers and new facilities of existing customers are subjected to the loan approval system of the Credit Union. Credit quality follows the Credit Union's policy which is reviewed regularly and amendments, where necessary, are implemented promptly.

Maximum exposure to credit risk

The Credit Union's maximum credit risk exposure equals the drawndown portion on the Statement of Financial Position and the undrawn portion of all committed facilities of loans and receivables, and is provided by the following table:

	Credit Union		***Consolidated***	
`	***2014***	*2013*	***2014***	*2013*
	$000's	$000's	**$000's**	$000's
Bank balances	**40,852**	28,830	**52,741**	36,662
Held to maturity investments	**163,471**	79,614	**76,322**	77,610
Loans and advances	**660,987**	642,269	**843,958**	755,331
Unused committed loan facilities	**73,890**	72,965	**73,890**	72,965
Loans approved but not funded	**26,113**	12,425	**26,113**	12,425
	965,313	836,103	**1,073,024**	954,993

Collateral and other credit enhancements

Loans and advances, except unsecured lines of credit and personal loans, are backed by collateral. The amount and type of collateral required depends on the assessment of the credit risk of the Member. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- for retail lending; mortgages over residential properties
- for commercial lending; charges over real estate properties.

Management monitors the market value of collateral.

The terms and conditions of the collateral are specific to individual loan and security types.

It is the Credit Union's policy to dispose of repossessed collateral in an orderly fashion. The proceeds are used to reduce or repay the outstanding claim. The Credit Union does not occupy repossessed properties for business use.

For bank balances and held to maturity investments, the balances are unsecured. The Credit Union has a policy only to invest with counterparties with investment grade ratings and to limit the exposures to them to maximum levels for each counterparty.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(b) Credit risk (continued)

Concentrations of credit risk

The Consolidated Entity incurs concentrations of loan credit risk by lending to counterparties primarily in New South Wales. This concentration has reduced as shown below.

Concentrations of the Credit Union's credit risk by geographic areas are:

	Credit Union		Consolidated	
	2014	2013	2014	2013
	%	%	%	%
New South Wales	60.5	63.7	59.8	63.2
Victoria	20.6	20.0	21.2	20.8
Queensland	11.5	10.1	12.4	10.3
Western Australia	3.2	2.0	2.7	1.7
South Australia	2.1	2.0	1.9	1.8
Tasmania	0.6	0.5	0.5	0.5
Other	1.5	1.7	1.5	1.7
Total	100.0	100.0	100.0	100.0

(c) Liquidity risk

Liquidity risk is the risk that the Consolidated Entity will be unable to meet its payment obligations when they fall due under normal and stress circumstances. To limit this risk, the Consolidated Entity has standby funding sources in addition to its core deposit base, manages assets with liquidity in mind and monitors future cash flows and liquidity on a daily basis incorporating an assessment of expected cash flows.

The Credit Union maintains a portfolio of High Quality Liquid Assets (HQLA) that can be easily liquidated in the event of an unforeseen interruption of cash flow. In July 2013 the Consolidated Entity established its self securitisation program and RBA repo arrangement to enable access to liquidity in a crisis situation. Overall, the liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors relating to both the market in general and specifically to the Credit Union. The most important of these is to maintain minimum regulatory limits on the ratio of net liquid assets to customer liabilities, set to reflect market conditions. Net liquid assets consists of cash and short term bank certificates of deposits/bills available for immediate sale.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(c) Liquidity risk (continued)

In the present economic environment, in order to minimise the risk of the liquidity ratio falling below 12% (as presently mandated by APRA), the Board has determined a target liquidity trading range of 14% - 19% and an internal minimum liquidity ratio of 13%. In the event that liquidity ratio falls below 13% or is considered to be at risk of falling below that level, specific remedial measures are required to be taken by the Board and management.

The Liquidity ratio during year was as follows:

	Consolidated	
	2014	2013
	%	%
30 June	15.26	15.56
Average during the period	15.20	16.39
Highest	17.23	19.21
Lowest	13.74	13.99

Refer to Note 13, 14 and 16 for maturity analysis of financial liabilities.

The balances for the Credit Union and the Consolidated Entity are the same and therefore the Credit Union balances have not been disclosed.

(d) Operational risk

Operational risk is the risk of loss arising from system failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Credit Union cannot expect to eliminate all operational risks, but through a control framework and by monitoring and responding to potential risks, the Credit Union is able to manage these risks to within tolerable limits. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff training and assessment processes; including the use of internal audit.

4 RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(e) Fair value risk

The Credit Union uses various methods in estimating the fair value of a financial instrument. The methods comprise:

Level 1 - the fair value is calculated using quoted prices in active markets.

Level 2 - the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 - the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

The fair value of the financial instruments as well as the methods used to estimate the fair value are summarised in the table below:

Credit Union

	-	**879,773**	**-**	**879,773**	-	777,880	-	777,880

Quoted market price represents the fair value based on quoted prices on active markets as at the reporting date without any deduction for transaction costs.

For financial instruments not quoted in active markets, the Credit Union uses valuation techniques such as present value techniques, comparison to similar instruments for which market observable prices exist and other relevant models used by market participants. These valuation techniques use both observable and unobservable market inputs.

Financial instruments that use valuation techniques with only observable market inputs, or unobservable inputs that are not significant to the overall valuation, include interest rate swaps. Member deposits and Borrowings are measured at amortised cost.

There were no transfers between Level 1 and Level 2 during the year.

6 INCOME TAX

	Consolidated 2014 $'000	2013 $'000
(a) Income tax expense		
The major components of income tax expense are:		
Statement of Comprehensive Income		
Current income tax		
Current income tax charge	**679**	1,080
Adjustments in respect of current income tax of previous years	**-**	-
Deferred income tax		
Income tax expense reported in the Statement of Comprehensive Income	**679**	1,080
(b) Amounts charged or credited directly to equity		
Deferred income tax related to items charged or credited directly to equity		
Net gains/(loss) on revaluation of cash flow hedges	**-**	-
Income tax expense reported in equity	**-**	-
(c) Numerical reconciliation between aggregate tax expense recognised in the Statement of Comprehensive Income and tax expense calculated per the statutory income tax rate		
A reconciliation between tax expense and the product of accounting profit before tax multiplied by the Credit Union's applicable income tax rate is as follows:		
Total accounting profit before income tax	**2,404**	3,531
At the Credit Union's statutory income tax rate of 30% (2013: 30%)	**721**	1,060
Adjustments in respect of current income tax of previous years	**(148)**	16
Adjustments in respect of deferred tax of previous years	**100**	-
Non-deductible expenses	**6**	4
Aggregate income tax expense	**679**	1,080
(d) Recognised deferred tax assets and liabilities		
Deferred tax at 30 June relates to the following:		
Statement of Financial Position		
(i) Deferred tax liabilities		
Other assets	**(100)**	-
Gross deferred tax liabilities	**(100)**	-

6 INCOME TAX (continued)

	Consolidated 2014 $'000	Consolidated 2013 $'000
(ii) Deferred income tax assets

(e) Unrecognised temporary differences

At 30 June 2014, there are no unrecognised temporary differences (2013: $nil).

(f) Franking credit balance

	2014 $'000	2013 $'000
The amount of franking credits available for the subsequent financial year are:		
– franking account balance as at the end of the financial year at 30% (2013: 30%).	**26,574**	26,314
– franking credits that will arise from the payment of income tax payable as at the end of the financial year.	**930**	260
– franking debits that will arise from the receipt of income tax receivable as at the end of the financial year.	**-**	-
	27,504	26,574

Balances for 2013 have been restated.

Franking credits arise as a result of the payment of income tax by the Credit Union.

The balances for the Credit Union and the Consolidated Entity are the same and therefore the Credit Union balances have not been disclosed.

7 CASH AND CASH EQUIVALENTS

	Credit Union		Consolidated	
	2014	*2013*	***2014***	*2013*
	$'000	*$'000*	***$'000***	*$'000*
Cash on hand	**1**	1	**1**	1
Cash at bank	**10,756**	10,849	**22,645**	18,681
Deposits at call with financial institutions	**30,095**	17,980	**30,095**	17,980
	40,852	28,830	**52,741**	36,662

Cash at bank earns interest at floating rates based on daily bank deposit rates. The carrying amounts of cash and cash equivalents represents fair value.

Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Credit Union, and earn interest at the respective short-term deposit rates.

8 LOANS AND ADVANCES (continued)

(a) Allowance for impairment loss

An increase in allowance for impairment loss of $112,000 (2013: increase of $146,000) has been recognised in the 'Impairment expense' line. This provision is in respect of specific debtors and debtors assessed on a collective basis, as described in note 2(h), for which such evidence exists.

	Credit Union		*Consolidated*	
	2014	*2013*	***2014***	*2013*
	$'000	*$'000*	***$'000***	*$'000*
Movements in the allowance for impairment loss were as follows:				
At 1 July	**748**	602	**748**	602
Charge for the year	**112**	146	**112**	146
At 30 June	**860**	748	**860**	748
Collective provision*	**741**	521	**741**	521
Specific provision	**119**	227	**119**	227
	860	748	**860**	748
At 30 June, the analysis of loans and advances is as follows:				
Neither past due nor impaired**	**639,806**	618,156	**822,777**	731,218
Current				
Past due but not impaired***	**-**	-	**-**	-

30 days - 3 months				
Past due but not impaired***	**2,489**	3,540	**2,489**	3,540
Individually impaired	**-**	-	**-**	-
3 months - 1 year				
Past due but not impaired***	**1,289**	514	**1,289**	514
Individually impaired	**53**	126	**53**	126
	661,847	643,017	**844,818**	756,079

* Collective provisioning methodology was updated to reflect to historical experience and industry practices.

** The credit quality of the financial assets that are neither past due nor impaired is considered of satisfactory standard. The credit quality of the portfolio is monitored on a continual basis through benchmarking delinquency, bankruptcy and write-off trends against historical and industry levels.

*** Payment terms on these amounts have not been renegotiated however credit has been stopped until full payment is made. Each operating unit has been in direct contact with the relevant debtor and is satisfied that payment will be received in full.

Restructured loans (Note 2(i))	**83**	53	**83**	53
The estimation of the fair value of collateral and other security enhancements held against loans and advances is shown below:				
Past due 30 days and over but not impaired	**3,790**	6,496	**3,790**	6,496
Individually impaired	-	18	-	18

Management monitors the market value of collateral obtained during its review of the adequacy of the allowance for impairment losses.

8 LOANS AND ADVANCES (continued)

(b) Concentration of loans

Individual loans which exceed 5% of Members' funds in aggregate amount to $nil in 2014 (2013: $nil).

	Credit Union		Consolidated	
	2014	2013	**2014**	2013
	$'000	$'000	**$'000**	$'000

	661,847	643,017	**844,818**	756,079

(c) Fair value

The *carrying amount* of loans and advances are as follows:

Lines of credit	**57,319**	65,291	**57,769**	65,960
Term loans	**604,528**	577,726	**787,049**	690,119
	661,847	643,017	**844,818**	756,079

The *fair values* of loans and advances are as follows:

Lines of credit	**57,398**	65,380	**57,848**	66,050
Term loans	**609,870**	581,122	**794,340**	693,934
	667,268	646,502	**852,188**	759,984

The fair values are based on cash flows discounted at a rate reflecting current market rates adjusted for counter party credit risk.

9 OTHER ASSETS

	Credit Union		Consolidated	
	2014	2013	**2014**	2013
	$'000	$'000	**$'000**	$'000
Prepayments	**2,367**	2,286	**2,367**	2,286
Sundry debtors	**1,687**	1,060	**146**	62
	4,054	3,346	**2,513**	2,348

Sundry debtors are neither impaired nor past due. It is expected that these balances will be received when due.

10 HELD TO MATURITY FINANCIAL INVESTMENTS

Negotiable Certificates of Deposits	**76,322**	77,610	**76,322**	77,610
Investment in Portavia No.1 Subordinated Notes	**4,972**	2,004	**-**	-
Investment in Portavia No.2 Subordinated Notes	**4,400**	-	**-**	-
Investment in Portavia No.2 Senior Notes	**77,777**	-	**-**	-
	163,471	79,614	**76,322**	77,610
Maturity analysis				
< 3 months	**42,558**	62,798	**42,558**	62,798
3 months - 6 months	**23,028**	14,812	**23,028**	14,812
6 months - 1 year	**10,736**	-	**10,736**	-
> 1 year	**87,149**	2,004	**-**	-
Total	**163,471**	79,614	**76,322**	77,610

Due to the short-term nature, the carrying amount of the held-to-maturity financial investments approximate their fair value.

Disposals (net of accumulated depreciation)	**(447)**	-
Amortisation	**(245)**	(164)
Balance at the end of the year - Net carrying amount	**961**	804

The balances for the Credit Union and the Consolidated Entity are the same and therefore the Credit Union balances have not been disclosed.

13 MEMBER DEPOSITS

	Consolidated 2014 $'000	Consolidated 2013 $'000
Call deposits	**224,912**	202,502
Term deposits	**471,195**	457,961
Withdrawable shares	**59**	60
	696,166	660,523

(a) Undiscounted Maturity analysis of Member

	2014 $'000	2013 $'000
At call	**224,971**	202,563
< 3 months	**308,961**	265,486
3 months - 6 months	**100,757**	123,123
6 months - 1 year	**42,367**	51,997
1 - 5 years	**19,110**	17,354
	696,166	660,523

(b) Concentration of Member deposits

No individual Member deposits represent 5% or more of the total liabilities of the Credit Union.

(c) Fair value

The fair values of Member deposits are as follows:

	2014 $'000	2013 $'000
Call deposits	**224,912**	202,502
Term deposits	**472,550**	459,748
Withdrawable shares	**59**	60
	697,521	662,310

Discounted cash flows (based upon the deposit type and its related maturity) were used to calculate the fair value.

(d) Interest rate and liquidity risk

Information regarding the liquidity risk and effective interest rate risk of Member deposits is set out in Note 4.

The balances for the Credit Union and the Consolidated Entity are the same and therefore the Credit Union balances have not been disclosed.

14 DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Consolidated Entity in the normal course of business in order to hedge exposure to fluctuations in interest rates. Offsetting financial assets and financial liabilities does not apply to the Consolidated Entity.

Swaps
Swaps are contractual agreements between two parties to exchange streams of payments over time based on specified notional amounts, in relation to movements in a specified underlying index such as an interest rate.

During the year interest rate swap contracts have been taken out by the Credit Union, the Portavia Trust No.1 and the Portavia Trust No.2 with other financial institutions. These entities paid a fixed rate of interest in return for a floating rate receipt. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

At 30 June 2014, the Credit Union had a $25 million non-amortising interest rate swap in place with the Commonwealth Bank of Australia. The swaps in the Portavia Trust No.1 and the Portavia Trust No.2 have amortising profiles which mirror the expected amortising profiles of the underlying fixed rate loans and therefore change over the term of the swap. The Notional Amounts included in the table below for the Consolidated Entity represents the notional amounts for the Credit Union, the Portavia Trust No.1 and Portavia Trust No.2 as at 30 June 2014.

The following shows the fair values of derivative financial instruments, recorded as liabilities, together with their notional amounts.

Derivative used as cash flow hedges	*Credit Union*		*Consolidated*	
	2014	*2013*	***2014***	*2013*
	$'000	*$'000*	***$'000***	*$'000*
Interest rate swaps				
- Fair value liability	**205**	-	**498**	95
- Notional amount	**25,000**	-	**89,745**	11,538

14 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Cash flow hedges

The Credit Union is exposed to variability in future interest cash flows on non-trading assets and liabilities. The Credit Union uses interest rate swaps as cash flow hedges of these interest rate risks.

Below is a schedule indicating as at 30 June, the periods when the hedged cash flows are expected to occur and when they are expected to affect profit or loss:

	Credit Union		*Consolidated*	
	Within 1 year	**1 - 3 years**	**Within 1 year**	**1 - 3 years**
2014	***$'000***	***$'000***	***$'000***	***$'000***
Cash inflow	**677**	**1,258**	**2,043**	**3,151**
Cash outflows	**(789)**	**(1,370)**	**(2,341)**	**(3,527)**
Net cash flows	**(112)**	**(112)**	**(298)**	**(376)**
2013				
Cash inflow	-	-	292	65
Cash outflows	-	-	(382)	(93)
Net cash flows	-	-	(90)	(28)

The net gain/(loss) on cash flow hedges reclassified to the profit or loss during the year was as follows:	***2014*** ***$'000***	***2013*** *$'000*
Interest expense	**(38)**	(214)
Taxation	**11**	64
Net gain/(loss) on cash flow hedges accounted for in the profit or loss	**(27)**	(150)

In 2014, nil (2013: nil) was recognised in the profit or loss due to hedge ineffectiveness from cash flow hedges.

15 CREDITORS AND OTHER LIABILITIES

	Credit Union		Consolidated	
	2014	2013	**2014**	2013
	$'000	$'000	**$'000**	$'000
Creditors and accruals	**3,218**	2,627	**4,056**	3,257
	3,218	2,627	**4,056**	3,257
Undiscounted Maturity analysis of Creditors and accruals:				
Less than 3 months	**3,128**	2,455	**3,966**	3,085
More than 3 months	**90**	172	**90**	172
Total	**3,218**	2,627	**4,056**	3,257

Due to the short term nature of these payables, their carrying value is assumed to approximate their fair value.

The payables are non-trade, non-interest bearing and have an average term of 14 days.

16 INTEREST-BEARING LOANS AND BORROWINGS

	Credit Union		Consolidated	
	2014	2013	**2014**	2013
	$'000	$'000	**$'000**	$'000

3 months - 6 months	**-**	-	**183,109**	117,262
More than 6 months	**77,777**	-	**-**	-
Total	**77,777**	-	**183,109**	117,262

16 INTEREST-BEARING LOANS AND BORROWINGS (continued)

(b) Fair values

Due to the short-term nature of these borrowings, the carrying amount of the Consolidated Entity's bank facility balances including overdraft approximate their fair value.

(c) Terms and conditions

During the year, the Credit Union terminated its standby facility with the Commonwealth Bank of Australia. The bank overdraft remains the only unsecured facility which has been taken out by the Credit Union with the Commonwealth Bank of Australia. The overdraft may be drawn at any time.

The Consolidated Entity's Bank Borrowings relate to notes issued by the Portavia No. 1 Trust to Westpac Banking Corporation ("Westpac") and are secured by mortgages purchased from the Credit Union. Two days' notice needs to be given for any notes issuance under this facility and prior approval needs to be sought from the Trustees, Perpetual Corporate Trust Ltd and the Note Subscriber, Westpac. The facility is renewable on its maturity date of 19 December 2014, the undiscounted value is assumed to approximate the fair value.

(d) Financing facilities available

At reporting date, the following balances facilities were available. Committed facility includes the standby facility and Portavia Trust - Westpac warehouse notes program.

	Credit Union		*Consolidated*	
	2014	*2013*	***2014***	*2013*
	$'000	*$'000*	***$'000***	*$'000*

	1,100	51,100	**201,100**	201,100
Facilities used at reporting date				
Bank overdraft	**-**	-	**-**	-
Committed facility	**-**	-	**183,109**	117,262
	-	-	**183,109**	117,262
Facilities unused at reporting date				
Bank overdraft	**1,100**	1,100	**1,100**	1,100
Committed facility	**-**	50,000	**16,891**	82,738
	1,100	51,100	**17,991**	83,838

(e) Assets pledged as security

At the reporting date, there were no assets pledged as security for interest bearing liabilities.

(f) Interest rate risk

Information regarding the interest rate risk of the interest bearing loans and borrowings is set out in note 3.

(g) Defaults and breaches

During the current and prior years, there were no defaults or breaches on any of the loans or loan conditions.

17 PROVISIONS

	Consolidated	
	2014	2013
	$'000	$'000
Annual leave	**347**	345
Long service leave	**323**	290
Lease make-good	**158**	115
	828	750
Settlement term (years)		
Long service leave	**5**	5
Lease make-good	**3**	4

Movements in provisions

Movements in the provision during the financial year, for long service leave and lease make good, are set out below:

	Lease Make-good	Long Service Leave
	$'000	$'000
At 1 July 2013	115	290
Arising during the year	43	33
At 30 June 2014	**158**	**323**

In accordance with the lease agreement, the Credit Union must restore the leased premises in Sydney to its original condition at the end of the lease term. A provision of $43,000 was raised during the year ended 30 June 2014 (2013: $33,000) in respect of the Credit Union's obligation to remove leasehold improvements from leased premises.

Adjustment in relation to the provision for long service leave relates to the movement in the discounting and probability weighting factor of long service leave balances based on the expected service of employees and their years of employment service with the Credit Union.

The balances for the Credit Union and the Consolidated Entity are the same and therefore the Credit Union balances have not been disclosed.

18 RESERVES

At 30 June 2014	**(143)**	**(436)**

19 CAPITAL MANAGEMENT

The Credit Union is licensed as an Australian Deposit-Taking Institution (ADI) under the Banking Act and is subject to prudential supervision by APRA. APRA has issued a series of prudential standards to implement the Basel II capital framework.

The Basel II Standards include CPS 110 Capital Adequacy which:

(a) Imposes on the Board a duty to ensure that the Credit Union maintains an appropriate level and quality of capital commensurate with the level and extent of the risks to which the Credit Union is exposed from its activities;

(b) Obliges the Credit Union to have in place an Internal Capital Adequacy Assessment Process (ICAAP).

There are three pillars to the Basel II capital framework -

Pillar 1 - involves specific capital charges for credit risk, operational risk, and the risk of financial market trading activities.

Pillar 2 - involves the Credit Union making an assessment of any additional capital necessary to cover other risks not included in Pillar 1.

Pillar 3 - involves increased reporting by the Credit Union to APRA.

The Credit Union's regulatory capital is analysed into two tiers:

- Tier 1 capital, which includes general reserves and current year earnings.
- Tier 2 capital, which includes tier 2 capital of the general reserve for credit losses.

Various limits are applied to elements of the capital base. APRA may require an ADI to hold more than 50% of its required prudential capital in the form of Tier 1 capital and there are restrictions on the amount of collective impairment allowances that may be included as part of Tier 2 capital. Other deductions from capital include deferred tax assets and intangible assets.

	2014	*2013*
	$'000	*$'000*
Regulatory capital		
Tier 1 capital	**89,068**	87,796
Tier 2 capital	**2,222**	2,008
Capital Base	**91,290**	89,804
Risk weighted assets	**468,775**	401,244
Capital adequacy ratios	**19.47%**	22.38%

During the period the Credit Union has complied with all externally imposed capital requirements.

Basel III

The Credit Union continues to monitor developments in regards to APRA's implementation of the Basel III capital requirements on its operations in accordance with APRA's timetable and expectations.

21 COMMITMENTS AND CONTINGENCIES

(a) Commitments

(i) Leasing commitments

Operating lease commitments – Credit Union as lessee

The Credit Union leases office premises at Level 16, 2 Market Street, Sydney. The lease has a life of 8 years expiring on 31 October 2018. There are no restrictions placed upon the lessee by entering into this lease.

Future minimum rentals payable under non-cancellable operating leases as at 30 June are as follows:

	Consolidated	
	2014	*2013*
	$'000	*$'000*
Within one year	**1,040**	1,000
After one year but not more than five years	**4,595**	4,418
After more than five years	**-**	395
Total minimum lease payments	**5,635**	5,813
(ii) Capital expenditure commitments		
Contracted but not provided for and payable within one year	**-**	-
(iii) Outstanding loan commitments		
Member loans approved but not funded	**26,113**	12,425

There is no certainty that all unfunded loans will ultimately be funded.

(iv) Outstanding line of credit commitments		
Member line of credit facilities approved but not funded	**73,890**	72,965
(v) Outstanding redraw commitments		
Member loan facilities where the outstanding loan balance is lower than the scheduled balance and the prepaid amount is subject to being redrawn	**50,513**	48,256

The Credit Union retains the right, at any time, to reduce or withdraw an approved line of credit limit or facility.

(b) Contingencies

As at 30 June 2014 and 2013 there are no significant contingent liabilities.

22 AUDITORS' REMUNERATION

The auditor for the Consolidated Entity is Ernst & Young.	Consolidated 2014 $	2013 $
Amounts received or due and receivable by Ernst & Young		
• an audit or review of the financial report of the entity	**179,139**	164,194
• other services in relation to the entity		
- tax compliance	**31,329**	16,429
- Audit related services	**43,692**	7,648
	254,159	188,271

23 KEY MANAGEMENT PERSONNEL

(a) Compensation of Key Management Personnel

Key Management Personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Credit Union, directly or indirectly, including any Director (whether executive or otherwise).

	Consolidated 2014 $	2013 $
Short-term	**1,229,935**	1,240,493
Termination benefits	**-**	-
	1,229,935	1,240,493

In the above table, remuneration shown as short term benefits means (where applicable) wages, salaries and social security contributions, paid annual leave and paid sick leave, profit-sharing and bonuses, value of fringe benefits received, but excludes out of pocket expense reimbursements.

All remuneration to Directors was approved by the Members at the previous Annual General Meeting of the Credit Union.

(b) Loans to Key Management Personnel

(i) The aggregate value of loans to Key Management Personnel as at balance date amounted to:	Consolidated 2014 $	2013 $
Personal loans - secured	**98,213**	11,685
Term Loans - secured	**2,561,120**	2,309,230
	2,659,333	2,320,915

23 KEY MANAGEMENT PERSONNEL (continued)

(b) Loans to Key Management Personnel (continued)

	Consolidated	
(ii) During the year the aggregate value of loans disbursed to Key Management Personnel amounted to:	***2014*** ***$***	*2013* *$*
Personal loans - secured	**174,276**	160,925
Term Loans - secured	**350,000**	493,893
	524,276	654,818
(iii) During the year the aggregate value of repayments received amounted to:	**321,551**	1,489,671
(iv) Interest and other revenue earned on loans and revolving credit facilities to Key Management Personnel:	**135,693**	136,614

Balances for 2013 have been restated.

Secured loans are secured against residential property. All loans advanced to Key Management Personnel are to be settled in cash and are issued under the same terms and conditions as other Members.

Terms and conditions of loans
The Credit Union's policy for lending to Key Management Personnel is that all loans are approved and deposits accepted on the same terms and conditions that applied to Members for each class of loan or deposit.

There are no loans that are impaired in relation to the loan balances with Key Management Personnel.

There are no benefits or concessional terms and conditions applicable to the close family members of the Key Management Personnel. There are no loans which are impaired in relation to the loan balances with close family relatives of Key Management Personnel.

(c) Other transactions and balances with Key Management Personnel and their related parties

	Consolidated	
	2014 ***$***	*2013* *$*
Total value term and savings deposits from Key Management Personnel	**1,133,125**	964,248
Total interest paid on deposits to Key Management Personnel	**29,637**	27,458

The Credit Union's policy for receiving deposits from Key Management Personnel is that all transactions are approved and deposits accepted on the same terms and conditions that applied to Members for each type of deposit.

There are no benefits paid or payable to the close family members of Key Management Personnel.

24 GROUP CONTROLLED ENTITY HOLDINGS

Details of controlled entities are as follows:

Name of Entity	% Holdings		Note
	2014	2013	
Portavia Trust No.1	100	100	1, 2
Portavia Trust No.2	100	-	1, 3

(1) The Credit Union holds 100% of residual income units.

(2) Established 8 December 2011.

(3) Established 10 July 2013.

25 EVENTS AFTER BALANCE SHEET DATE

There have been no significant events after the balance date.

26 ECONOMIC DEPENDENCY

The term “economic dependency” means that a change in existing relationships could have an economic effect on the Consolidated Entity. It does not mean that the Consolidated Entity is economically supported by the listed organisations in any way, whether financially or by guarantee, other than by means of normal commercial arrangements.

The Consolidated Entity has an economic dependency on the following:

(a) The Commonwealth Bank of Australia (CBA)

CBA is a provider of banking facilities to the Credit Union.

(b) Westpac Banking Corporation

This company provides a $200 million debt warehouse facility for the Portavia Trust No.1.

(c) Data Action Pty Limited

This company provides and maintains the application software and internet banking utilised by the Credit Union.

(d) NST Worldwide Pty Limited

This company provides technical management and support for the office IT Infrastructure, office Help Desk and Member internet site (non-banking site only).

(e) Australian Settlements Limited (ASL)

This company provides a range of transactional settlement support processes, particularly in relation to the Credit Union's Visa Debit Card offering. This service has been transitioned from Cuscal Limited during the year.

(f) Reserve Bank of Australia (RBA)

The Credit Union has access to the RBA's "repo" arrangement, which allows it to draw funding at short notice under a crisis liquidity situation.

Directors' Declaration
For the year ended 30 June 2014

In accordance with a resolution of the Directors of Gateway Credit Union, I state that:

In the opinion of the Directors:

(a) the financial statements and notes of the Credit Union and Consolidated Entity are in accordance with the *Corporations Act 2001* , including:

  (i) giving a true and fair view of the Credit Union's and Consolidated Entity's financial position as at 30 June 2014 and of their performance for the year ended on that date; and

  (ii) complying with Australian Accounting Standards and *Corporations Regulations 2001* ;

(b) the financial statements and notes also comply with the International Financial Reporting Standards as disclosed in note 2;

(c) there are reasonable grounds to believe that the Consolidated Entity will be able to pay its debts as and when they become due and payable.

On behalf of the Board

Independent auditor's report to the members of Gateway Credit Union Limited

Report on the financial report

We have audited the accompanying financial report of Gateway Credit Union Limited, which comprises the statements of financial position as at 30 June 2014, the statements of comprehensive income, the statements of changes in equity and the statements of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the company and the consolidated entity comprising the company and the entity it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 2(b), the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

EY

Page 2

Independence

In conducting our audit we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report. We confirm that the Auditor's Independence Declaration would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

a. the financial report of Gateway Credit Union Limited is in accordance with the *Corporations Act 2001*, including:

   i giving a true and fair view of the company's and consolidated entity's financial positions as at 30 June 2014 and of their performance for the year ended on that date; and

   ii complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and

b. the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2(b).
